

### **Eggplant Parmesan with Marinara and Fontina cheese**

*Store refrigerated for 5 days or freeze for up to 2 weeks.*

Bring eggplant parmesan to room temperature before baking; remove from the refrigerator for about 1 hour. Preheat the oven to 375 degrees. Bake eggplant parmesan with the cover on for 40 minutes. Take cover off, and bake for another 15 mins. Eggplant parmesan should be hot in the center. If it needs more time, leave in the oven for 10-15 minutes more. If the cheese is too golden in color, return the cover on the pan for the last few minutes. Remove the eggplant parmesan from the oven. Let it rest at room temperature for 10 minutes before serving.
