

Chicken Parmesan with Marinara and Fontina

Store refrigerated for 3 days or freeze for up to 2 weeks.

Remove Chicken Parm tray from the refrigerator about 1 hour before heating to bring to room temperature. Preheat the oven to 375 degrees. Bake chicken parmesan with the cover on for 15 minutes. Take cover off, and bake for another 10 minutes or until the cheese is golden brown. Check the internal temperature of the chicken; it should reach at least 175 degrees before serving. If it needs more time, return to the oven until the chicken is hot in the center. Remove from the oven and enjoy!
